

Asuris Core PlanSM

Healthy living now for individuals and families

You need a plan that supports healthy living today and maximizes your ability to afford health care coverage in the coming years.

That's why we've introduced Asuris Core Plan.

This new kind of catastrophic plan offers a unique blend of up-front benefits for office visits, outpatient X-ray and lab and preventive care—all at a reasonable cost. It supports your efforts to stay well **and** offers the financial security you would want for major health expenses.

Up-front coverage

Up-front benefits encourage you to get and stay well. To make this important care affordable and convenient for you, these benefits are available before you meet your deductible:

- Four upfront office visits covered at 100% after a \$35 copay
- The first \$400 in X-ray and lab charges covered at 100%
- The first \$200 in preventive care covered at 80%

To round out the coverage, you gain access to the RegenceRx[®] discount program, so you save money on prescription medications.

Healthy by design

Asuris Core Plan is designed with your health in mind. It includes access to a variety of wellness programs through our award-winning Web site, **myasuris.com**. There you will find the necessary tools you need to build a healthy lifestyle and make informed coverage decisions.

Apply today!

You'll find everything you need—including online applications—at **www.asuris.com**. Or, call us at 1 866-704-2708.

If you're already on an Asuris Individual plan, you may follow our current guidelines to move to Asuris Core Plan.
