

Asuris Medicare Script™

Medicare Prescription Drug Plan

Asuris Medicare Script prescription drug plans offer choice

Having the right prescription drug coverage can help ensure your peace of mind. But different people have different health care and prescription drug needs—so not all plans are right for all people.

Asuris offers Asuris Medicare Script and Asuris Medicare Script Enhanced—two plans that provide you with quality coverage and security if your needs change. Asuris Medicare Script and Asuris Medicare Script Enhanced are prescription drug plans approved by Medicare. Choose either plan for:

- An extensive list of pharmacies nationwide
- Convenient mail-order service
- \$4 copay for Tier 1 generic medications for a 30-day supply

The Asuris Medicare Script and Asuris Medicare Script Enhanced formulary includes **all** Medicare-covered Part D prescription drugs.

What to consider in selecting the prescription drug plan that's right for you

When choosing a prescription drug plan, you'll want to compare coverage, cost and convenience.

- **Coverage** – Check the formulary to see if your current prescription medications are covered (different plans can cover different drugs and at different tiers).
- **Cost** – Consider the combined cost of your monthly premium and your share of your prescription drug costs (copays, deductibles and coinsurance).
- **Convenience** – Be sure the plan offers coverage through a pharmacy that is convenient to you.
