# Asuris Medicare Script™ (PDP)

Medicare Prescription Drug Plans

## Asuris Medicare Script (PDP) prescription drug plans offer choice

Having the right prescription drug plan (PDP) can help ensure your peace of mind. But different people have different health care and prescription drug needs—so not all plans are right for all people.

Asuris offers two plans that provide you with quality coverage, along with security if your needs change. Asuris Medicare Script (PDP) and Asuris Medicare Script Enhanced (PDP) are stand alone prescription drug plans with a Medicare contract. Choose either plan for:

- An extensive list of pharmacies nationwide
- Convenient mail-order service
- \$4 copay for Tier 1 generic medications for a 30-day supply
- Formulary includes most Part D prescription drugs

Asuris Medicare Script Enhanced (PDP) also includes a \$4 copay for Tier 1 generic drugs during the Coverage Gap.

The benefit information provided is not comprehensive. Additional information should be requested before making a decision about your coverage.

## How to choose the prescription drug plan that's right for you

You'll want to compare coverage, cost and convenience.

- **Coverage**—Check the formulary to see if your current prescription medications are covered (different plans can cover different drugs and at different tiers).
- **Cost**—Consider the combined cost of your monthly premium and your share of your prescription drug costs (copays, deductibles and coinsurance).
- **Convenience**—Be sure the plan offers coverage through a pharmacy that is convenient to you.

### Learn more today

*As a broker appointed to represent Asuris Medicare Script (PDP) plans, I can help you decide if one is right for you. Just call me at the number shown on the back. I'll send you a free information kit and help answer your questions.*

Benefits, formularies, premiums and pharmacy networks may change in the next contract year.
